Personal Chef

“One Can Say Everything Best Over a Meal” – George Eliot

What is that wonderful aroma coming from your kitchen? That is dinner. Nutritious home-cooked food made of the highest quality ingredients, properly prepared with love and care...ready and waiting for your family or your guests.

Is this a fairy tale? No, once upon a time the services of a personal chef were only available to a wealthy few. But today, a personal chef is a very reasonable choice for many and a necessity for some. As they say, Life Comes at You Fast, and there just isn't time for the planning, shopping, loading and unloading, cooking, and cleaning up. Besides, you can't spend quality time with your family if you are always in the kitchen.

Why not just eat out?

- ❖ Fast food gets tiresome quickly
- ❖ Fast food is not healthy
- ❖ You have to get everyone back in the car after a long day only to wait in line for not so personal service
- ❖ You have a special diet and it is challenging to find appropriate meals
- ❖ You are trying to make healthier choices and eating quality food at restaurants gets really expensive

About Us

Chef Jane Doe loves people and loves food. It seems that her passion for food came quite naturally. Her grandfather owned a restaurant for more than 50 years. [\(It would be great to have a picture of Jane Doe and her grandfather and to add a little more detail about his influence in her life.\)](#) Jane Doe's love of people took her to nursing school where she acquired a firm foundation in nutrition and also exercised her gift of caring for others.

Jane Doe's catering career started slowly. She began cooking for friends, then for some small weekend events...and as word spread about this talented chef her business just kept growing. Jane Doe started **ABC Catering** six years ago and her clientele has been growing ever since.
